

COPYING, TRANSFERRING OR RE-RECORDING OF DE WOLFE / SOUND IDEAS PRODUCTS RIGHTS AND LIMITATIONS:

Computers are an integral part of today's production environment. Recognising this, De Wolfe / Sound Ideas specifically allows for one copy of our sounds to be made to a single computer hard disk that can be accessed by no more than five workstations at a time. Sounds that are copied to hard disk are to be used specifically for the purposes of synchronizing the audio with audio and/or visual productions or applications as defined in De Wolfe End User License Agreement. However, if the sounds are accessible by more than five workstations, you need to contact De Wolfe Limited to obtain a Multi User Annual Site License. Below is an explanation of licensing options.
